

## CLAIMS

I/We claim:

1. An insulated pipe concealer comprising:  
an elongated plastic pipe sleeve having an interior surface and an exterior surface, a left  
5 side, and a right side, wherein said left side and right side are pivotally connected  
and said pipe sleeve is adapted to close with said left side abutting said right side;  
an elongated insulation element on the interior of said pipe sleeve;  
a channel disposed along the length of said insulation element in the direction of  
elongation, said channel being adapted to receive a pipe;  
10 a plurality of latches attached to the exterior of said pipe sleeve, wherein said latches are  
adapted for fastening said left side to said right side; and  
a plurality of hinged flaps attached to the exterior of said pipe sleeve, wherein said flaps  
are adapted for attachment to a wall.
2. The insulated pipe concealer of claim 1, wherein said pipe sleeve is substantially  
15 rectangular.
3. The insulated pipe concealer of claim 2, wherein said pipe sleeve is approximately  
10 foot long.
4. The insulated pipe concealer of claim 3, wherein said pipe sleeve is approximately  
2" deep and 3" wide.
- 20 5. The insulated pipe concealer of claim 4, wherein said channel is adapted to  
receive refrigeration pipes.
6. The insulated pipe concealer of claim 3, wherein said pipe sleeve is approximately  
2" deep and 4-6" wide.
7. The insulated pipe concealer of claim 1, further comprising a second insulated  
25 pipe concealer wherein both of said pipe concealers are adapted to receive the  
same pipe or pipes, and both pipe concealers have a top end and a bottom end, the  
bottom of the first pipe concealer abutting the top of said second pipe concealer
8. The insulated pipe concealer of claim 1, wherein said latch is a snap-latch
9. The insulated pipe concealer of claim 1, wherein the exterior of said pipe sleeve is  
30 colored.

10. The insulated pipe concealer of claim 10, wherein the exterior of said pipe sleeve is textured.

11. The insulated pipe concealer of claim 1, wherein said pipe sleeve is polyvinylchloride.

5 12. The insulated pipe concealer of claim 13, wherein said insulation is a foam insulation.

13. The insulated pipe concealer of claim 1, wherein said hinged flap is adapted to attach to the outside wall of a house.

10 14. The insulated pipe concealer of claim 1, wherein said channel is adapted to receive two pipes.

15. The insulated pipe concealer of claim 1, wherein said channel is adapted to receive three or more pipes.

16. An insulated pipe concealer comprising:

15 an elongated plastic pipe sleeve having an interior surface and an exterior surface wherein said exterior surface is substantially rectangular, a left side, and a right side, wherein said left side and right side are pivotally connected and said pipe sleeve is adapted to close with said left side abutting said right side;

an elongated foam insulation element on the interior of said pipe sleeve;

20 a channel disposed along the length of said insulation element in the direction of elongation, said channel being adapted to receive a pipe;

a plurality of latches attached to the exterior of said pipe sleeve, wherein said latches are adapted for fastening said left side to said right side; and

a plurality of hinged flaps attached to the exterior of said pipe sleeve, wherein said flaps are adapted for attachment to a wall.

25 17. A pipe concealer comprising:

an elongated plastic pipe sleeve having an interior surface and an exterior surface, a left side, and a right side, wherein said left side and right side are pivotally connected and said pipe sleeve is adapted to close with said left side abutting said right side;

30 a channel disposed along the length of said plastic pipe in the direction of elongation, said channel being adapted to receive a pipe;

a plurality of latches attached to the exterior of said pipe sleeve, wherein said latches are adapted for fastening said left side to said right side; and  
a plurality of hinged flaps attached to the exterior of said pipe sleeve, wherein said flaps are adapted for attachment to a wall.

5

18. The insulated pipe concealer of claim 1, wherein said pipe sleeve is substantially rectangular.

19. The insulated pipe concealer of claim 2, wherein said pipe sleeve is approximately 10 foot long.

20. The insulated pipe concealer of claim 3, wherein said pipe sleeve is approximately 2" deep and 3" wide.
